All photos will be taken in color; however, any of them can be converted into Sepia or Black and White upon request.

Within five days of your Wedding, I will have your Wedding photos placed on a web site where they can be viewed by family and friends. At this site, anyone who wants to order copies of any of the photos for themselves will be able to do so. If you wish, I can make this site password protected so you can decide who does (and does not) have access to your photos.
